User manual

EcoTravel is an application that enables companies to compete with each other in who is best at using public transport. The application automatically tracks how much carbon dioxide each user is saving by taking the bus instead of a car.
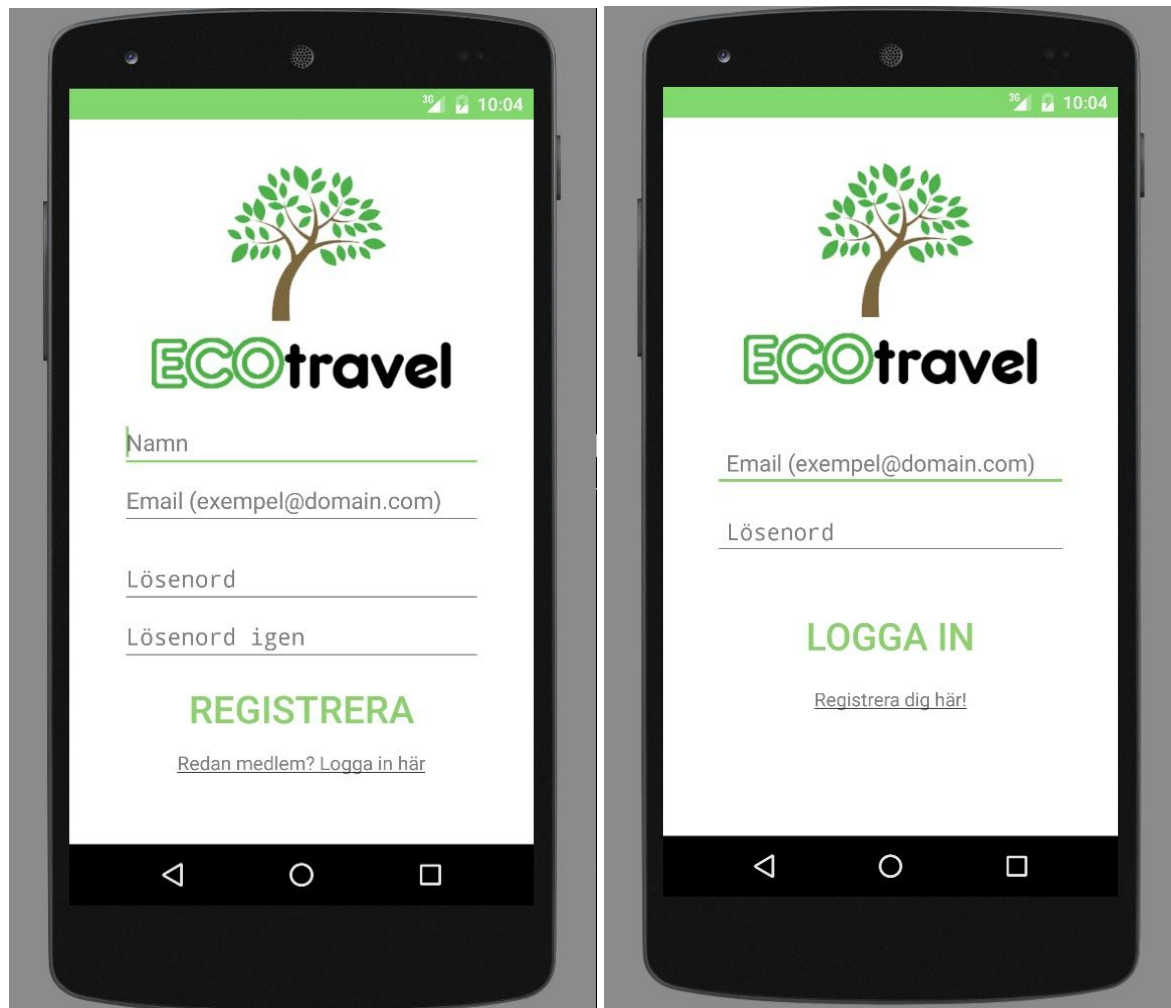

The applications features are:
- Tracks from which points you have been riding the bus, and calculates corresponding distance by car and uses this distance to calculate how much money and carbon dioxide you have saved
- Gives you an overview of how much carbon dioxide and money you have saved over a period of time
- Allows you to compete with other people
- Allows you to connect to a company therefore helping it compete against competitors
- Allows you to see how much other users are traveling.

This is a guide of how to use this application.

1 Log in / register

The first view that will be shown if you have never used the application on that phone before is the Register-screen. If you already have an account you can press the link at the bottom of the screen to get to the Login-screen.
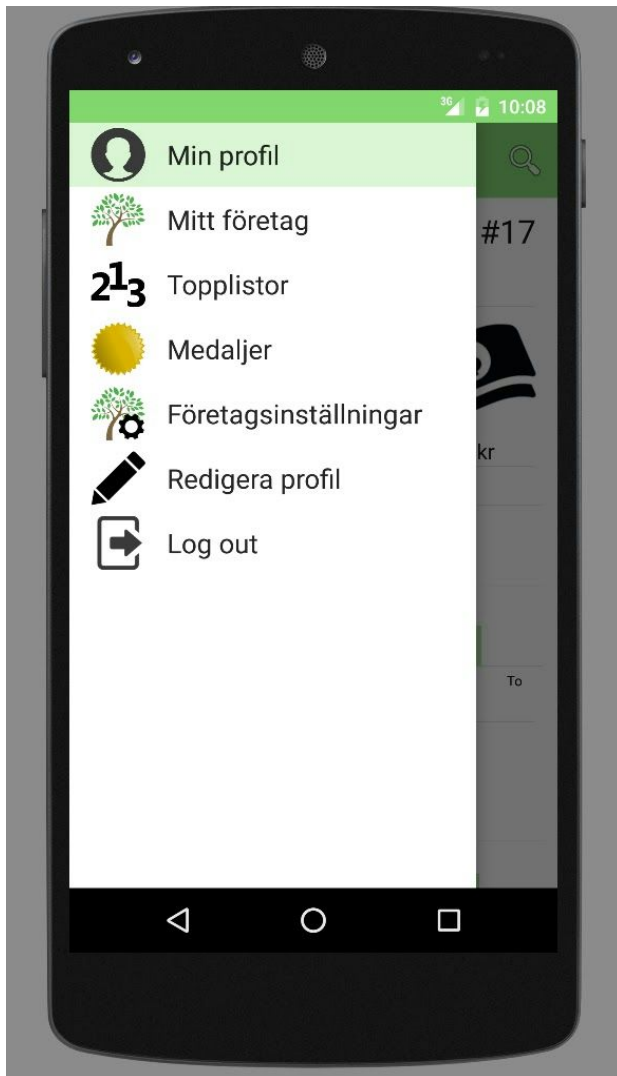

2 Profile view

When you are finished with the login, your profile is shown. This is where the statistics over your traveling is shown. (Diagrams over carbon dioxide- and money saved).
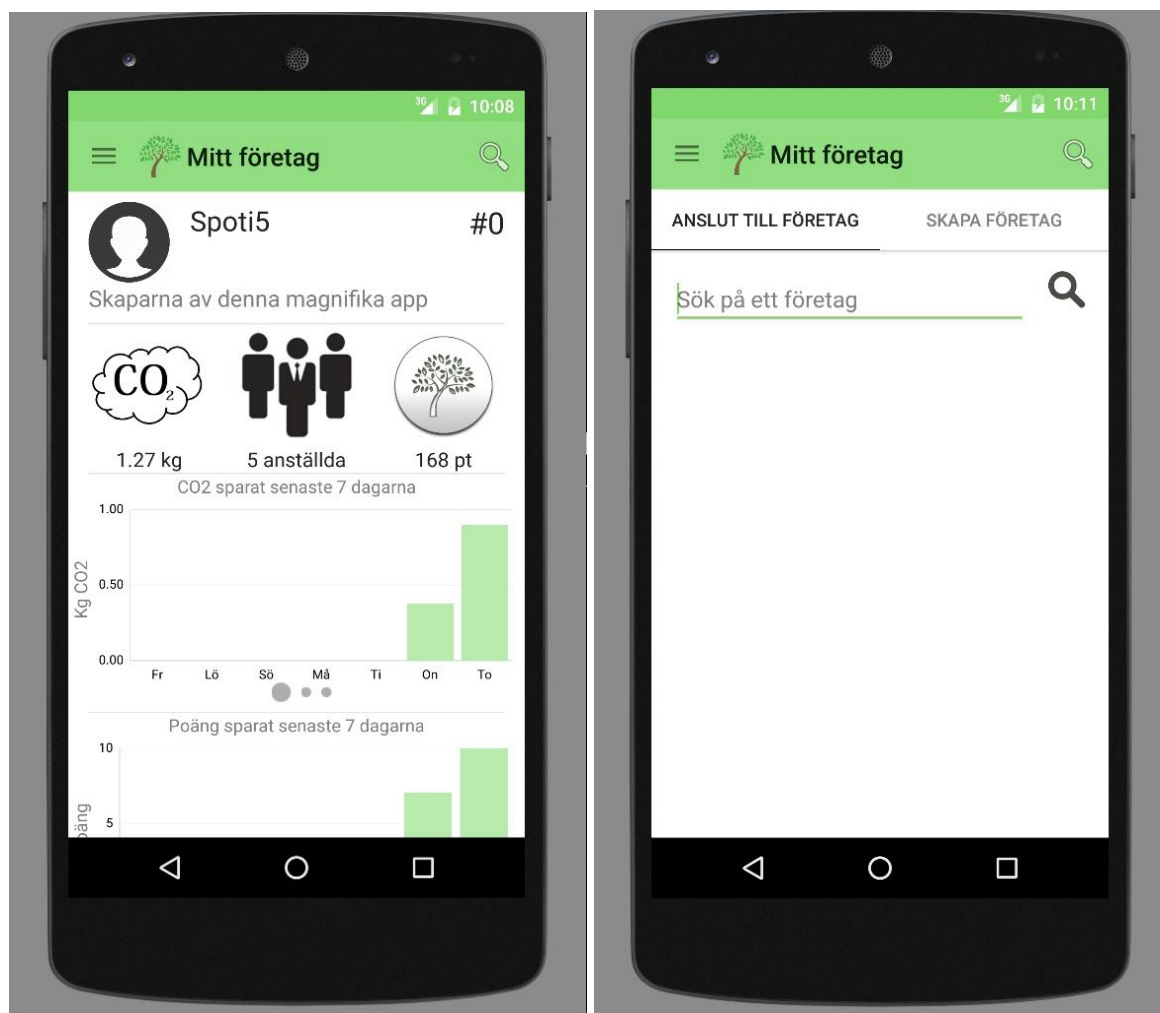

3 Navigation

To navigate through the app you use the menu list. You can either swipe from the from the left edge of the phone to the right, or press the triple bar icon at the top-left corner to make it visible.
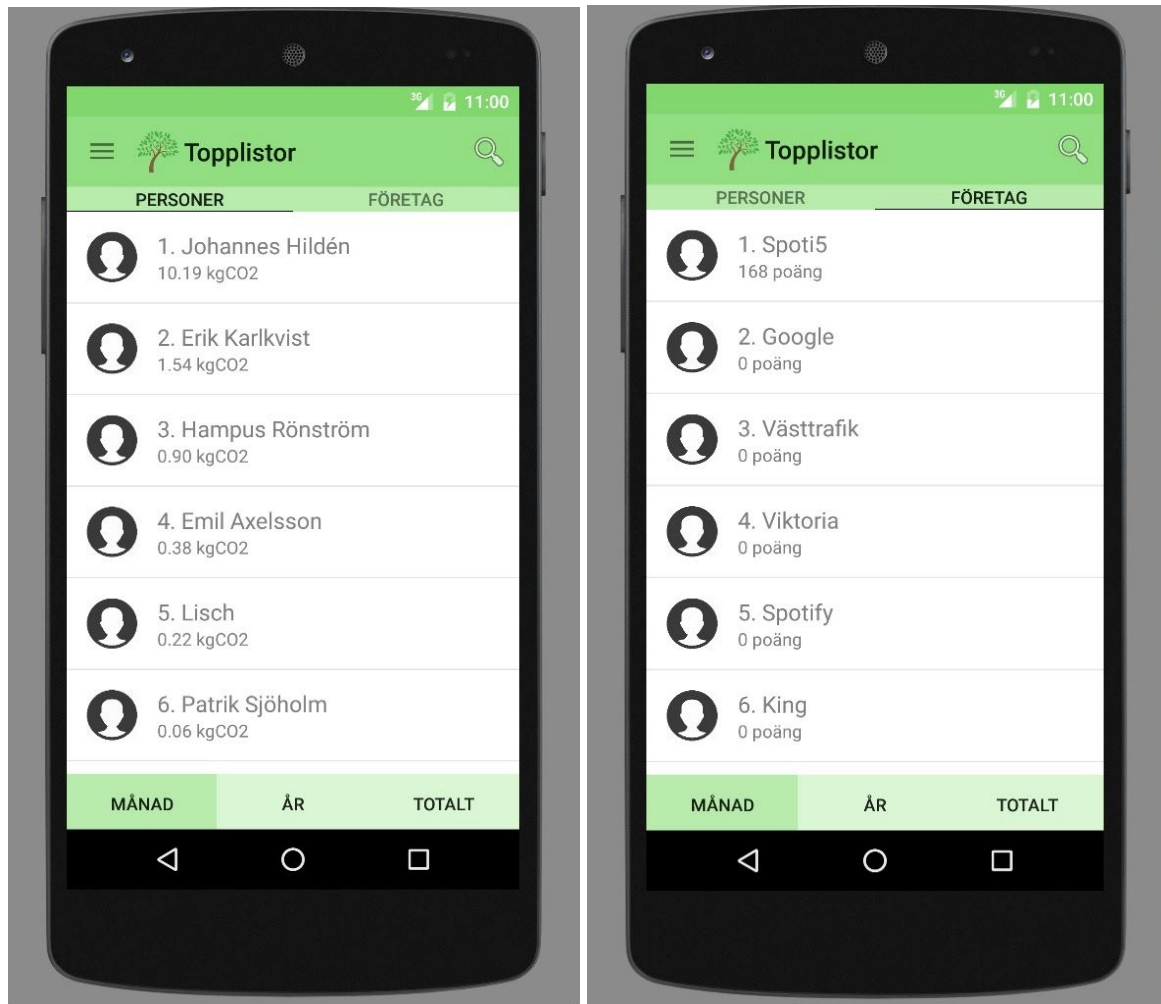

4 Company view

If you press "Mitt företag" and you are connected to a company, a view with your company's statistics is shown. If you are not connected to a company, a view where you can search through companies and connect to companies is shown instead. (To connect to a company you search for it, enter their profile, and then press "Gå med i företag".)

5 Top lists

By pressing "Topplistor" in the menu list you will see how the standings are in the toplists. You can switch between people- and company-toplists by either pressing the tab or swiping to the right/left. You can also change the range of the toplists to monthly, yearly or total. When pressing a person or company in the listview, you get redirected to their profile page for their personal statistics.
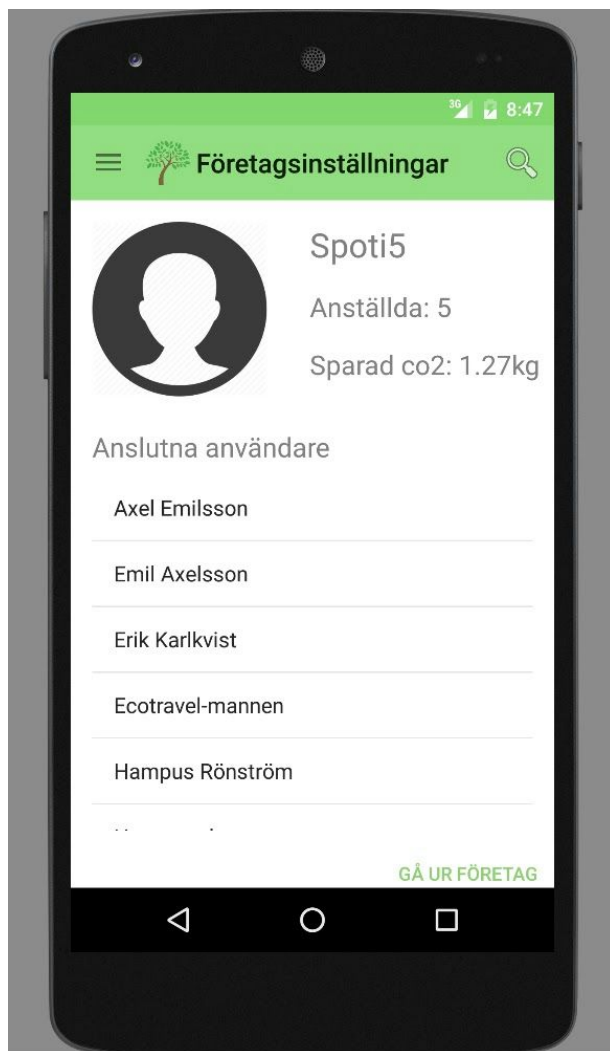

6 Medals

When you press "Medaljer" in the menu list, the medals are shown. Medals are like achievements that you are supposed to work towards. There are your own personal medals, but there are also medals for your company and global ones. Company medals are where you and all the other people connected to your company are trying to reach the goal together. Global medals are for all of the application users to fight for together. To switch between the different medals, you swipe the screen or press the tabs.

7 Company settings

If you are connected to a company, the "Företagsinställningar" option will be available in the menu list. If you are not, this option will not be shown. As an employee you can press this and see other people connected to the company. As administrator of the company, you can change a few settings.

If you no longer work for a company, you can remove the connection to the company by pressing "Gå ur företag" at the bottom of the screen.

8 Edit your profile

If you for some reason want to change your name or password, you can do this in the edit screen by pressing "Redigera profil".
